In September of 1985 we began the long process of capturing the year's events in picture and in text. We feel through the hard work and determination, we have created a yearbook that will capture the hearts of all who read it for years to come. We would like to take this time to express our gratitude to the staff, administration, student body and parents of Bettsville for putting up with all the interruptions during the year. If it was not for your cooperation we would not have a yearbook. The staff would like to thank all of you for your time and effort.
